THE BAJA

SUPERIOR QUALITY

The simplistic and stylish nature of this cutting edge home brings together futuristic elements of design with the home of tomorrow. The fusion of floor to ceiling glass panels, stone, Italian tiles, steel and water elements, combined with the interplay of light creates this spacious, contemporary, modern home. Features include four large bedrooms, study, bathroom, powder room and ensuite. Chic yet practical the entertainer's kitchen has plenty of storage, including bifold window access opening out onto the expansive outdoor entertainment area. Three separate living zones are created within the home - media room, family room and a mezzanine overlooking a breathtaking split level pool

all which provide uninterrupted views making this design perfect for a waterfront home.
